To whom it may concern

EAZA welcomes into its ranks the leading zoos and aquariums across Europe and Western Asia. Our 400 Members are actively involved in animal welfare, conservation, population management, research and education for the preservation of wildlife. In order to maintain and increase the standards and practices of zoological institutions, EAZA sets rigorous Standards for our Members and has its own Accreditation inspection cycle to assess Members against these Standards.

Jersey Zoo is an EAZA Member in good standing. The zoo has been a Member since the very founding of EAZA in 1992. It was last accredited as a Full Member in 2017.

Jersey Zoo has long been known as a conservation leader, with a global impact as evidenced by the Durrell Index. Jersey Zoo and their staff play an active role in the EAZA community, by sharing expertise in a variety of EAZA committees and forums and by coordinating EAZA Ex Situ Programmes (EEPs) for nearly 20 species, from beetle to bison. EEPs ensure that best practice in animal welfare and management is developed and implemented.

Throughout the thirty years of their membership in EAZA, Jersey Zoo has shown commitment to animal care and zoo science, and an open and transparent approach to their collaboration with the rest of the community. We look forward to continuing this positive working relationship.

Yours faithfully,

Myfanwy Griffith
EAZA Executive Director
